

SHOW ME HOW TO LOVE

You didn't have to leave the glory of heaven
But You became a simple man
You didn't have to serve the poor and afflicted
But You touched and healed their brokenness

No greater love has been given
You became the ultimate sacrifice
Create in me the heart of a servant
Let this be my soul's desire

Chorus:
Oh, Show me how to love
In the true meaning of the word
Teach me to sacrifice
Expecting nothing in return
I want to give my life away
Becoming more like you every day
My words are not enough

There was a bruised and battered woman
With her hungry children on the street
And I heard you ask in that still small voice
What have you done for the least of these

Lord consume me with a burning fire
That melts away my complacency
Let me be moved with love and compassion
Then someone will find the way in me

(Chorus)

Open up my eyes that I might really see
More and more of you and less of me
By loving the unlovable
And touching the untouchable
Let my actions speak louder than my words

(Chorus)

Please, show me how to love
