

WE'VE COME

Thank you for your goodness
Thank you for your grace
We've come into your presence
We've come to seek your face
And Lord we're lifting hallelujahs
For all that You've have done
Your grace is so amazing yes,
And that is why we've come.

We've come to sing your praises
We've come to worship You
For all that you have done Lord
And all that You will do
And standing in Your presence
Father we will see
The flow of healing power, and completed liberty

And standing at your throne Lord
Father we're in awe
We cry out for your mercy
You always hear our call.
And Lord you shower down your blessings
You are our sword and shield
Your truth is everlasting, yeah
So we will gladly yield.

We've come to sing your praises
We've come to worship You
For all that you have done Lord
And all that You will do
And standing in Your presence
Father we will see
The flow of healing power, and completed liberty
