

Have Beauty

Verse 1:

Did I get myself into this mess
How did I end up here
Am I sad, mad, glad, I can't tell
Is this hurt or is this fear?
Losing my direction
I feel more disconnected with every hour that passes
So I take it to the Lord and boldly come before
And say all I have is ashes.

Chorus:

Here have beauty
Joy that I give fully
Peace that's like a river running freely unexplained, unexplained
Just come to me
Feel the sun shine through me
And I will take away all of the pain that you bring
Have beauty

Verse 2:

Now He healed my broken heart
He was waiting from the start
To give me joy for mourning
Give me the spirit of praise for heaviness
Now I can bring to you this warning
Never let Satan imprison your mind
Let Jesus be your portion
He's the everlasting light
He'll bring you through the night
Into the light of Glory

Chorus:

Here have beauty
Joy that I give fully
Peace that's like a river running freely unexplained, unexplained
Just come to me

Feel the sun shine through me
And I will take away all of the pain that you bring
Have beauty

Oh, all you gotta do all you gotta do
Is bring Him all your ashes
What's He gonna do, what's He gonna do
Fill your life with beauty

All you gotta do all you gotta do
Is bring Him all your ashes
What's He gonna do, what's He gonna do
Fill your life with beauty

All you gotta do all you gotta do
Is bring Him all your ashes
What's He gonna do, what's He gonna do
Fill your life with beauty

All you gotta do all you gotta do
Is bring Him all your ashes
What's He gonna do, what's He gonna do
Fill your life with beauty

Chorus:

Here have beauty
Joy that I give fully
Peace that's like a river running freely unexplained, unexplained
Just come to me
Feel the sun shine through me
And I will take away all of the pain that you bring, that you bring
