

LOVE NEVER ENDS

Sing to me daddy before I go to sleep
Tell me of angels watching over me
Relive the story of childhood mysteries
Then say you love me, pray a prayer
And I'll feel sleep

Knowing love never ends
When the dark of night surrounds
It's the light that burns within
And love never ends
When the day has come and gone
And it's time for moving on
Love never ends

Sing to me daddy before I walk the aisle
Just like you used to do when I was just a child
Hold me close I need your strength, especially today
I'll always be your little girl, you can't give that away

Because love never ends
When the dark of night surrounds
It's the light that burns within
And love never ends
When the day has come and gone
And it's time for moving on
Love never ends
Never ends

Sing to me daddy before you go to sleep
Tell me the story one more time just where you'll be
And how we'll meet again and live forever on and on
Sing to me daddy before this precious moment's gone

Love never ends
When the dark of night surrounds
It's the light that burns within
And love never ends
When the day has come and gone
When it's time for moving on
Love never ends

Sing to me daddy, before I go to sleep
