

"Take Refuge"

Chorus:

Take refuge in the Lord your God
And He'll rescue you every time
Take refuge in the Lord your God
And you'll live and never die
For His gift is eternal
And for all that receive
All you gotta do is simply believe
And take refuge.

Broken and dishearted I was sinking
Losing my grip for the very last time
In my despair then I was thinking
That through the blood of Christ I was justified
So I stood to my feet
Looked the devil in the eye
Said in Jesus' name, "bye bye.

Chorus:

Take refuge in the Lord your God
And He'll rescue you every time
Take refuge in the Lord your God
And you'll live and never die
For His gift is eternal
And for all that receive
All you gotta do is simply believe
And take refuge.

So the devil had to flee in Jesus' name
Knew at once my life would never ever be the same
Said "devil got a message for you from above"
You can't separate me from God's love
Nothing can separate me from God's love

Chorus:

Take refuge in the Lord your God
And He'll rescue you every time
Take refuge in the Lord your God
And you'll live and never die
For His gift is eternal
And for all that receive
All you gotta do is simply believe
And take refuge.
